

Montgomery College's Surgical Technology Program

*Information Session
Spring 2023*

What is a Surgical Technologist?

The Surgical Technologist.....

Identifies and supports the needs of
the surgeon, patient,
and
surgical team.

The Surgical Team

- o Surgeon
- o Anesthesiologist
- o Circulator
- o Surgical Technologist
- o First Assistant

Technical Standards

Technical Standards:

The student must possess sufficient physical and emotional functional abilities with or without reasonable accommodations.

Following a health history and comprehensive physical examination, a licensed medical provider will determine if this student demonstrates these abilities. If the licensed medical provider determines that the student is unable to meet the technical standards, they will provide an explanation and suggested accommodation(s); this may result in a Disability Support Services referral. If an accommodation is recommended, the student will be referred to Montgomery College's Disability Support Services for a consultation.

Surgical Services

General
Orthopedic
GYN
Neurology
Cardiothoracic

- Plastic and Reconstructive
- Genitourinary
