\* ENGL 101, if needed for ENGL 102/ENGL 103, or general elective.

**Overall GPA of 2.0 is required to graduate**

Statewide Program

Total Credits:

*The major in Fire Prevention Technology offers students the opportunity to develop the professional skills and knowledge necessary to serve as an effective leader and manager in the public safety environment. The program is built around a "core" of courses that focus on broad knowledge and principles. Fire Prevention specialists inspect buildings and equipment to detect fire hazards and enforce state and local regulations, develop and coordinate fire prevention programs, identify corrective actions necessary to bring properties into compliance with applicable fire codes, laws, regulations, and standards, and explain these measures to property owners or their representatives, inspect and test fire protection and/or fire detection systems to verify that such systems are installed in accordance with appropriate laws, codes, ordinances, regulations, and standards, and write detailed reports of fire inspections performed, fire code violations observed, and corrective recommendations offered.*

Last Modified: June 2016

*Developed in conjunction with the National Fire Academy of the Federal Emergency Management Agency, the program covers the various aspects of the profession, provides content knowledge, and improves employment opportunities in the field, as well as prepares students for entry level management responsibilities and increases technical knowledge necessary for diverse public and private leadership situations.*

Advising Worksheet Contact: [Anthony Solano](#)

See an advisor to submit an Application for Graduation the semester BEFORE you intend to graduate.

**This UNOFFICIAL document is for planning purposes ONLY and completion does not guarantee graduation.**

*This degree is a career program and may not readily transfer to four year colleges/universities (except in special cases.) Visit transfer planning for more information.*
